

# RACGP placement process 2024.2

The RACGP placement process is designed to equitably distribute registrars across Australia in a transparent and flexible manner.

Our open market approach, together with your valuable feedback, contributes to a placement process that affords choice for both registrars and training sites.

Facilitated through the Training Management System (TMS), this process is shaped by the needs of registrars, practices and supervisors, and bespoke priority placement support is available where required.

Our local training support teams understand that requirements vary greatly, and are available to help registrars and training sites navigate this process.

## Key dates

Please note the following dates and mark them in your calendar. More detailed information on each stage of the process will follow.

Date	Placement stage
Monday 11 March 2024	Training site capacity update opens.
Monday 25 March 2024	Registrar training intention update opens.
Tuesday 2 April 2024	Training site capacity update and registrar training intention update closes.
