Independent learning program for GPs

The Royal Australian  
College of General  
Practitioners

## Program 2011 for nonmembers

The *check* Program is a monthly quality improvement and continuing professional development (QI&CPD) activity and independent learning program developed by The Royal Australian College of General Practitioners.

Each *check* case, written by expert clinicians, includes a brief clinical scenario followed by a series of questions designed to bring out the important issues for GPs to consider in the clinical history, examination, investigation and management of patient presentations.

### QI&CPD Program

Each *check* Program unit provides an opportunity for GPs to attain 6 Category 2 points in the RACGP QI&CPD Program.

Each activity involves reading and completing the unit, then answering 10 multiple choice questions online via the *gplearning* website. This gives participants the flexibility to accrue Category 2 points for units that they complete, as well as gain Category 2 points for *check* without necessarily completing all units. This activity can only be completed online at [www.gplearning.com.au](http://www.gplearning.com.au).
