*Correct reprocessing of reusable medical devices is vital for patient safety and to ensure uncontaminated pathology results. This session is designed to inform participants on appropriate procedures for the cleaning and sterilisation of reusable medical equipment along with the correct documentation process.*

## Course outline

- Precautions and personal protection
- Demonstration of correct cleaning tools for medical and surgical equipment
- Identification of packaging options for medical and surgical equipment
- Loading and unloading tips for steam sterilisers
- Documentation required for safe practice.

This session is presented within the guidelines of Standards Australia AS/NZS4815 and AGPAL accreditation requirements and identifies required links with Standards Australia AS/NZS4817.

## Who should attend

This workshop is suitable for practice nurses and practice staff.

## Presenter

**Sylvia Morris** – Former State Sterilisation Coordinator, SA Health

Sylvia has 44 years experience in health including microbiology and infection control. She is head of the central sterilising department and an educator and course coordinator of Certificate III and Certificate IV in sterilisation at Central Adelaide Local Health Network.

**Sterilisation and infection control**
