

RACGP Curriculum for Australian General Practice

Review Guidelines & Questions

Thank you for agreeing to provide feedback to inform the RACGP curriculum review. Your comments will be used by the College to build upon existing strengths and deliver a text that best meets the needs of GPs in training, their Supervisors and training organisations. The vision for this review is to produce a purposeful, cohesive and coherent framework that provides a roadmap of capabilities along the medical professional continuum.

Please submit your completed form and any additional documents to curriculumrenewal@racgp.org.au

No

Yes

Basic principles to guide the process:

Please use the template provided below. For sections that are not relevant, please write N/A or leave blank. Where possible, provide specific examples to illustrate your comments. Additional documents and resources can be submitted with your feedback.

- Your feedback will be used for the purpose of updating and refreshing existing content and structure, and to inform the development of new content and resources
- Recommendations and resources should be evidence-based, best practice, current and factually correct
- Maintain focus on the primary audience
- Some topics apply to multiple categories, in this instance, place the topic in the most relevant category

Curriculum review questions

Overall:

1. What are the main strengths of the current curriculum?

2. What do you consider to be the main weaknesses of the current curriculum?

Writing style:

3. Does the curriculum have an approachable and engaging format and writing style?

4. Is the content written at an appropriate level and language?

Specific content:

5. Are there any components missing from the structure of the curriculum?

6. Are there any topics you would like to see included that are not currently covered?

7. Does the specific content relevant to your area of expertise sufficiently reflect the skills and knowledge required for General Practitioners to provide quality care? (Please give examples)

8. Is the material factually correct? Does it require updating?

Ancillaries:

9. Are there any learning resources you would like to see included in the material?

Summary

10. Any further comments or suggestions that you would like to make about the material you have reviewed?
