

Mental health skills training

Dual application for GPMHSC accreditation 2017–19

INSTRUCTIONS FOR APPLICANTS

This application form is for training providers seeking accreditation from the GPMHSC for education activities to be recognised as ‘Mental Health Skills Training’ (MHST).

Activities require prior accreditation with RACGP and/or ACRRM before adjudication by the GPMHSC.

Training providers can seek accreditation from RACGP and/or ACRRM using this form.

If you require RACGP and/or ACRRM accreditation, this application must be submitted directly to the relevant College. If you have existing accreditation for this activity with the RACGP and/or ACRRM, you may submit this application to directly to the GPMHSC Secretariat.

Training providers are strongly encouraged to view the mental health training standards outlined in the document *Mental health training standards 2017-2019: a guide for training providers*.

Key contact details for all applications for GPMHSC accreditation

If you are applying for GPMHSC accreditation of an activity that **does not have** prior accreditation with RACGP and/or ACRRM, this form must be forwarded to:

RACGP QI&CPD Program

Contact your relevant state / territory faculty:
<https://www.racgp.org.au/education/qicpd-program/gps/state-contact-details/>

ACRRM PD Program

P 1800 223 226
E pdp@acrrm.org.au
W www.acrrm.org.au

For **currently accredited** RACGP and/or ACRRM activities applying for GPMHSC accreditation, and for applications for GPMHSC re-accreditation, this form must be forwarded to:

GPMHSC Secretariat

100 Wellington Parade, East Melbourne, Vic 3002

P 03 8699 0556
F 03 8699 0570
E gpmhsc@racgp.org.au

Additional information for training providers delivering activities under the MHST (Modular Pathway).

Training courses that incorporate both modules of the MHST (Modular Pathway) will be recognised as a QI&CPD Category 1 activity.

GPs are not bound to complete the Mental Health (Core Module) and Mental Health (Clinical Enhancement Module) with the same training provider. However, each module, on their own, will be recognised as a QI&CPD Category 2 activity.

If training providers choose to extend their Mental Health (Clinical Enhancement Module) activity to a minimum of 6 hours and incorporate a predisposing and reinforcing activity, the course can be recognised as a QI&CPD Category 1 activity.

Training providers will need to indicate if they are applying for Category 1 or Category 2 accreditation from the RACGP in *Section 3a*.

To all applicants

Is this:

A new application for 2017–19 triennium *Please go to Section 1 and complete the application form*

An application for reaccreditation *Please read instructions below:*

Reaccreditation of 2014–16 GPMHSC approved activities for the 2017–19 triennium

Training providers who have had MHST activities accredited with the GPMHSC in previous trienniums, will need to apply for re-accreditation for the 2017-2019 triennium using this form.

Training providers seeking re-accreditation will need to:

- **Complete Section 6** (responses to the updated learning outcomes) **and Section 8** (acknowledgement of responsibilities) of this application form
- **Submit a letter outlining any changes** that have been made from the original MHST application that have been incorporated into this application. *This letter is not required if there have been no changes made since accreditation.*
- **A copy of an evaluation from report containing aggregated data from the activities conducted in the previous triennium.** The report can be identical to the evaluation report submitted to the RACGP and/or ACRRM.

Section 1 Please indicate which organisation(s) you are seeking accreditation from using this form:

I want to use this form to seek RACGP QI&CPD Program accreditation.

Please complete all **yellow shaded** 'RACGP' sections.

Please forward a copy of this application to the RACGP for adjudication.

Please note that providers who do not have an existing 'Provider Contract' with the QI&CPD Program will be required to pay an adjudication fee. Please complete the Tax Invoice included at the back of the form.

I want to use this form for ACRRM PD Program accreditation.

Please complete all **light blue shaded** 'ACRRM' sections.

Section 2 Please indicate if you already have accreditation and are seeking **only** GPMHSC accreditation:

I already have RACGP QI&CPD accreditation for this activity and seek GPMHSC accreditation only.

RACGP activity number:

I already have ACRRM accreditation for this activity and seek GPMHSC accreditation only.

ACRRM activity number:

Section 3 Please indicate the educational course type(s) you seek GPMHSC accreditation for:

MHST (Primary Pathway)

Modular Pathway

Please complete Section 3a.

Section 3a

Please indicate which module(s) you seek for GPMHSC accreditation

Mental Health (Core Module)

Mental Health (Clinical Enhancement Module)

Category 1 QI&CPD activity

Category 2 QI&CPD activity

Section 4 Training provider and activity information

Name of GP(s)

AHPRA number

RACGP QI&CPD number

4.8 Domains of general practice

For each domain select only one competency outcome (a minimum of one domain).

Select the appropriate domains and competency outcomes

Domain 1. Communication skills and the patient-doctor relationship	Domain 2. Applied professional knowledge and skills		Domain 3. Population health and the context of general practice	Domain 4 Professional and ethical role	Domain 5. Organisational and legal dimensions
CS1.1.1 Communication is clear, respectful, empathic and appropriate to the person and their <i>sociocultural context</i>	CS2.1.1 The conduct of the consultation is appropriate to the <i>needs of the patient</i> and the sociocultural context	CS2.2.7 The results of investigations are interpreted in the context of the patient	CS3.1.1 The <i>patterns and prevalence of disease</i> are incorporated into screening and management practices	CS4.1.1 Adherence to <i>relevant codes and standards of ethical and professional behaviour</i>	CS5.1.1 <i>Infection control and relevant clinical practice standards</i> are maintained
CS1.1.2 Effective communication is used in <i>challenging situation</i>	CS2.1.2 <i>Continuity of care</i> promotes quality and safety	CS2.2.8 Diagnosis and management is evidence-based and relevant to the needs of the patient	CS3.1.2 The impacts of the <i>social determinants of health</i> are identified and addressed	CS4.1.2 <i>Duty of care</i> is maintained	CS5.1.2 Effective <i>clinical leadership</i> is demonstrated
CS1.1.3 Communication with <i>family, carers and others</i> involved in the care of the patient is appropriate and clear	CS2.1.3 Comprehensive and <i>holistic management plans</i> are developed collaboratively	CS2.2.9 <i>Rational prescribing and medication monitoring</i> is undertaken	CS3.1.3 Current and emerging <i>public health risks</i> are effectively managed	CS4.1.3 <i>Patient-doctor boundaries</i> are identified and maintained	CS5.1.3 <i>Relevant data</i> is clearly documented, securely stored and appropriately <i>shared</i> for quality improvement
CS1.1.4 <i>Complaints and concerns</i> are managed effectively	CS2.2.1 A comprehensive, clearly documented <i>biopsychosocial history</i> is taken from the patient	CS2.2.10 The uncertainty of ongoing <i>undifferentiated conditions</i> is managed	CS3.2.1 <i>Barriers to equitable access to quality care</i> are addressed	CS4.1.4 <i>Critical incidents and potential critical incidents</i> are identified and managed	CS5.1.4 Quality and safety is enhanced through the effective use of <i>information systems</i>
CS1.2.1 Ways in which health can be optimised and maintained are communicated to patients, family members and carers	CS2.2.2 An <i>appropriate and respectful physical examination</i> of the patient is undertaken	CS2.3.1 Quality <i>evidence-based resources</i> are critically analysed and utilised	CS3.2.2 The health needs of individuals are balanced with the health needs of the community through effective <i>utilisation of resources</i>	CS4.2.1 Professional knowledge and skills are reviewed and developed	CS5.1.5 Effective <i>triaging and time management structures</i> are in place to allow timely provision of care
	CS2.2.3 A <i>significantly ill</i> patient is identified and managed appropriately	CS2.3.2 Innovative approach to care of patients with <i>multisystem and/or complex health issues</i> is taken	CS3.2.3 Effective leadership improves outcomes for patients	CS4.2.2 <i>Reflection and self-appraisal</i> are undertaken regularly	CS5.1.6 Ethical <i>business processes and practices</i> , and <i>effective governance structures</i> are implemented
	CS2.2.4 A <i>rational list of differential diagnoses</i> is formulated	CS2.4.1 Appropriate <i>mode of care delivery</i> to suit the needs of the patient		CS4.2.3 <i>Personal health and wellbeing</i> is evaluated, maintained and developed	CS5.2.1 <i>Patient confidentiality</i> is managed appropriately
	CS2.2.5 Appropriate procedures are undertaken after receiving informed consent	CS2.4.2 <i>Fragmentation of care</i> is minimised		CS4.3.1 Professional knowledge and skills are effectively shared with others	CS5.2.2 <i>Shared decision making and informed consent</i> are explained and obtained
	CS2.2.6 <i>Rational options for investigations</i> are offered	CS2.4.3 Demonstrate <i>leadership in emergency situations</i>		CS4.3.2 Identify and support <i>colleagues who may be in difficulty</i>	CS5.2.3 <i>Medico-legal requirements</i> are integrated into <i>accurate documentation</i>

Curriculum contextual units – select one or more relevant contextual units

Main units		Presentations	
AH16	Aboriginal and Aboriginal Torres Strait Islander health	AV16	Abuse and violence
RH16	Rural health	AM16	Addiction medicine
Populations		DE16	Dermatology
AD16	Adult health	DM16	Disaster management
CO16	Care of older people	EN16	Ear and nose medicine
CY16	Children and young people health	EY16	Eye medicine

Other: please supply further information			

4.9 Specific requirements

If you have completed this activity for the purpose of meeting a third party / specific requirement, please indicate below. To be eligible for specific requirements, content must represent more than 50% of the activity. Some topic areas require additional requirements. Please see specific topic area pages for more details. Select the relevant topic area and upload supporting material.

Recommended attachments include:

- Conference program clearly highlighting the components relevant to the selected specific requirements, including qualifications of facilitators / speakers
- Session summary

General practitioners providing anaesthesia services	Diagnostic radiology
Medical acupuncture	Focussed psychological strategies skills training
Breast medicine	Focussed psychological strategies CPD
General practitioners providing surgical services	Mental health skills training
Cultural safety training	Mental health CPD
Cultural awareness training	Mental health core module
Women's reproductive health	Mental health clinical enhancement module

 Please attach evidence documentation

4.10 CPR CPR skill training must form a minimum of 1 hour of the education and be consistent with the ARC guidelines

Will the activity include CPR?

Yes

No

 Please attach evidence documentation

ACRRM required information: complete only if seeking ACRRM accreditation with this form.

Questions relating to completion of this section should be directed to the ACRRM Professional Development Program – pdp@acrrm.org.au; 07 3105 8200.

4.11 Activity type

Conference

Distance Education

Workshop

Skills based training (including simulator training)

Other – please specify

4.12 Curriculum area(s) and educational domain(s)

Education Domains

Please select the curriculum area(s) relevant to the activity mapped against the relevant educational domain(s)

Provide medical care in the ambulatory and community setting

Provide medical care in the hospital setting

Respond to medical emergencies

Apply a population health approach

Address the health needs of culturally diverse and disadvantaged groups

Practise medicine with an ethical, intellectual and professional framework

Practise medicine in the rural and remote context

Curriculum areas

Surgery

Target audience:

Rural medical practitioners

Rural registrars

Other

Section 5 Overview of the activity

5.1 Activity summary

Aim

What is the aim of the activity?

Needs assessment

All needs assessments need to be supported by current and clinical evidence based references, in accordance with the RACGP QI&CPD guidelines, demonstrating that this activity is valid to GP needs.

The needs assessment for this activity may include information from one or more of the following:

- information from expert bodies including references to peer reviewed medical literature and/or recognised health organisation documentation
- references to federal and/or state government policy; relevant guidelines, reports and initiatives
- GP perspective, e.g. formal GP participant survey – Note: anecdotes, informal surveys, personal opinions and single ‘expressions of interest’ are not valid
- community perspective, e.g. information from community groups, other health professionals, GP divisions and consumer groups.

 **Attach a copy of your needs assessment including references**

Activity overview

Responses to the following points should incorporate clear examples from the program development process and/or content where appropriate and relevant. The overall educational goal of MHST is to provide GPs with quality training in mental health assessment, care planning and review for mental disorders commonly presenting in general practice.

Please provide responses to all points and include attachments where indicated. If you require more space for your responses please attach additional pages clearly indicating point number.

OFFICE
USE ONLY

5.2 Please give an **overview** of the activity

☐ Criterion met
☐ Criterion not met

- (100 words or less) including:
- Title of the activity
 - Summary of the topic areas covered
 - Summary of participation and engagement styles

(Please note that this section may be used as a publishable summary of your activity if accredited)

 **Attach a copy of the advertising material / program flyer**

5.8 Describe the active involvement of mental health professionals within program	☐ Criterion met ☐ Criterion not met
• Planning <i>(required)</i> • Development <i>(required)</i> • Delivery <i>(required)</i> • Review <i>(required)</i> Provide the name, qualifications and organisational affiliation of the mental health professionals involved.	
5.9 Describe the active involvement of mental health carers and consumers within program	☐ Criterion met ☐ Criterion not met
• Planning <i>(required)</i> • Development <i>(required)</i> • Delivery <i>(required)</i> • Review <i>(required)</i> Please also briefly detail carer's and consumer's organisational affiliations (e.g. with recognised advocacy groups) and past experience in similar roles. <i>For information on consumer and carer participation, refer to Section 4 within the document Mental health education standards 2017-2019: A handbook for training providers' available from www.gpmhsc.org.au</i>	

5.10 Describe how the activity will be evaluated	☐ Criterion met ☐ Criterion not met

RACGP required information

Applicants for RACGP QI&CPD accreditation must include three mandatory questions within post program evaluations. These are:

1. to what degree were the learning outcomes met (each learning outcome listed),
2. to what degree were your learning needs met, and;
3. rate to what degree this activity was relevant to your practice.

 Attach a copy of all evaluation materials

Section 6 Addressing the learning objectives

Applicants must read the text below prior to completing section

On completion of the education and training activity, general practitioners will demonstrate an increase in their skills in the detection of, and assessment of, common mental disorders.

Training providers must complete the relevant section applicable to the educational activity seeking GPMHSC accreditation:

- **MHST (Primary Pathway)** – complete *Section 6a*
- **MHST (Modular Pathway) (including combined Core Module & Clinical Enhancement Module, and standalone Core Module and standalone Clinical Enhancement Module)** – complete *Section 6b*

Responses to the following should incorporate **brief, and clear, examples** from the program content to demonstrate how each learning outcome is addressed. Training providers are encouraged to structure their response to the specific objectives outlined in the documents: *Mental health education standards 2017-2019: a handbook for GPs and Mental health education standards 2017-2019: A handbook for training providers*.

Section 6a MHST (Primary Pathway)

6.1 Learning outcome: Identify and manage treatment for mental health issues experienced by consumers	OFFICE USE ONLY
Overview of Australia's mental healthcare system	☐ Criterion met ☐ Criterion not met
Epidemiology and aetiology of mental illnesses included for treatment under the Better Access Initiative	☐ Criterion met ☐ Criterion not met
Detection and assessment of mental illnesses in primary care	☐ Criterion met ☐ Criterion not met
Complexities and comorbidities often associated with mental illness	☐ Criterion met ☐ Criterion not met
Skills in mental health assessment, including interview skills, psychosocial history taking, risk assessment (including risk of suicide and self-harm), current psychosocial status and comorbidity	☐ Criterion met ☐ Criterion not met

Use of psychometric instruments to aid assessment and identify change	☐ Criterion met ☐ Criterion not met
Reassessment and review of consumers with a known mental illness	☐ Criterion met ☐ Criterion not met
6.2 Learning outcome: Develop and review evidence-based and needs-based GPMHTP in consultation with consumers and carers	OFFICE USE ONLY
Negotiating a shared understanding of the mental illness with the consumer, culminating in an agreed GPMHTP	☐ Criterion met ☐ Criterion not met
Provision to consumers and carers of psychoeducation and advice on self-help, including proactively responding to early warning signs and developing personal relapse prevention plans	☐ Criterion met ☐ Criterion not met
Appropriate and inappropriate use of pharmacological and/or evidence-based psychological therapies for treatment of mental illness	☐ Criterion met ☐ Criterion not met

Skills in shared care, multidisciplinary communication and team work	☐ Criterion met ☐ Criterion not met
Developing relapse prevention strategies	☐ Criterion met ☐ Criterion not met

6.3 Learning outcome: Incorporate perspectives and needs of consumers, their carers and others in a person's network in GPMHTP to inform subsequent care received.	OFFICE USE ONLY
Consumer experience – Consumer experience of diagnosis, when first diagnosed, whether this diagnosis has changed over time and the impact of the diagnosis and the mental illness more broadly on the consumer's life.	☐ Criterion met ☐ Criterion not met
Consumer experience – Helpful and unhelpful aspects of relationship with the GP and/or healthcare system, and the GP role of care coordinator.	☐ Criterion met ☐ Criterion not met
Consumer experience – Value of the GPMHTP from a recovery perspective and the recovery journey.	☐ Criterion met ☐ Criterion not met

Consumer experience – Previous experiences of and barriers to accessing mental health services and improvements that could be made to the primary healthcare system for consumers of mental health services to eliminate barriers to access.	☐ Criterion met ☐ Criterion not met
Consumer experience – Useful resources.	☐ Criterion met ☐ Criterion not met
Carer experience – How the mental illness diagnosis of the consumer has impacted on the carer role, their life and their health and wellbeing	☐ Criterion met ☐ Criterion not met
Carer experience – How GPs can best support carers and other support people via care coordination	☐ Criterion met ☐ Criterion not met
Carer experience – The value of the GPMHTP and the carer role in the recovery journey	☐ Criterion met ☐ Criterion not met

Carer experience – Improvements that could be made to the primary healthcare system for carers of people accessing mental health services to eliminate barriers faced by carers	☐ Criterion met ☐ Criterion not met
Carer experience – Useful resources	☐ Criterion met ☐ Criterion not met
6.4 Learning outcome: Use practice systems to identify local services and resources that safeguard consumer safety and assist in providing holistic mental healthcare to consumers	OFFICE USE ONLY
Local mental healthcare providers / agencies and referral pathways	☐ Criterion met ☐ Criterion not met
Systematic approaches to risk assessment follow-up and coordination of care for consumers	☐ Criterion met ☐ Criterion not met
6.5 Learning outcome: Use appropriate MBS item numbers relating to provision of mental healthcare	OFFICE USE ONLY
Discuss MBS item numbers relating to the development of GPMHTP and other GP mental health item numbers	☐ Criterion met ☐ Criterion not met

Section 6b MHST (Modular Pathway)

If you are developing a **combined MHST Core Module and Clinical Enhancement Module**

Please complete ALL Learning outcomes

If you are developing a **Core Module ONLY**, please complete 6.6, 6.7, 6.9, 6.10

If you are developing a **Clinical Enhancement Module ONLY**, please complete 6.6, 6.7, 6.8, 6.9

6.6 Learning outcome: Identify and manage treatment for mental health issues experienced by consumers, including common mental health conditions and the specific illness/es or related issues covered in the activity	OFFICE USE ONLY
Overview of Australia's mental healthcare system	☐ Criterion met ☐ Criterion not met
Epidemiology and aetiology of common mental illnesses and the specific mental illness/es included for treatment through the Better Access Initiative	☐ Criterion met ☐ Criterion not met
Detection and assessment of the common mental illnesses and the specific mental illness/es or related issues covered in this activity.	☐ Criterion met ☐ Criterion not met
Complexities and comorbidities often associated with mental illness, with particular attention on the specific issue/s covered in this activity (if applicable)	☐ Criterion met ☐ Criterion not met

Skills in mental health assessment including interview skills, psychosocial history taking, risk assessment (including risk of suicide and self-harm), current psychosocial status including consideration of family members and children who might be affected, and comorbidity, including the specific issue/s covered in the activity	☐ Criterion met ☐ Criterion not met
Use of psychometric instruments to aid assessment and identify change.	☐ Criterion met ☐ Criterion not met
Reassessment and review of consumers with a known mental illness	☐ Criterion met ☐ Criterion not met
6.7 Learning outcome: Develop and review evidence-based and needs-based GPMHTP for mental illness/es covered in the activity in consultation with consumers and carers	OFFICE USE ONLY
Negotiating a shared understanding of the specific mental illness/es with the consumer, culminating in an agreed care plan.	☐ Criterion met ☐ Criterion not met
Provision to consumers and carers of psychoeducation and advice on self-help for specific illness/es covered, including proactively responding to early warning signs, and developing personal relapse prevention plans and safety plans.	☐ Criterion met ☐ Criterion not met

Appropriate and inappropriate use of pharmacological and/or evidence-based psychological therapies for treatment of the specific mental illness/es.	☐ Criterion met ☐ Criterion not met
Skills in shared care, multidisciplinary communication and teamwork.	☐ Criterion met ☐ Criterion not met
Developing relapse prevention strategies.	☐ Criterion met ☐ Criterion not met
6.8 Learning outcome: Incorporate perspectives and needs of consumers, their carers and others in a person's network in a GPMHTP to inform subsequent care received	OFFICE USE ONLY
Consumer experience – Consumer experience of diagnosis, when first diagnosed, whether this diagnosis has changed over time and the impact of the diagnosis and the mental illness more broadly on the consumer's life.	☐ Criterion met ☐ Criterion not met
Consumer experience – Helpful and unhelpful aspects of relationship with the GP and/or healthcare system, and the GP role of care coordinator.	☐ Criterion met ☐ Criterion not met

Consumer experience – Value of the GPMHTP from a recovery perspective and the recovery journey.	☐ Criterion met ☐ Criterion not met
Consumer experience – Previous experiences of and barriers to accessing mental health services and improvements that could be made to the primary healthcare system for consumers of mental health services to eliminate barriers to access.	☐ Criterion met ☐ Criterion not met
Consumer experience – Useful resources.	☐ Criterion met ☐ Criterion not met
Carer experience – How the mental illness diagnosis of the consumer has impacted on the carer role, their life and their health and wellbeing	☐ Criterion met ☐ Criterion not met
Carer experience – How GPs can best support carers and other support people via care coordination	☐ Criterion met ☐ Criterion not met

Carer experience – The values of the GPMHTP and the carer role in the recovery journey	☐ Criterion met ☐ Criterion not met
Carer experience – Improvements that could be made to the primary healthcare system for carers of people accessing mental health services to eliminate barriers faced by carers	☐ Criterion met ☐ Criterion not met
Carer experience – Useful resources	☐ Criterion met ☐ Criterion not met
6.9 Learning outcome: Use practice systems to identify local services and resources relating to the specific illness/es covered in the activity that safeguard consumer safety and assist in providing holistic mental healthcare to consumers	OFFICE USE ONLY
Local mental healthcare providers / other agencies and referral pathways relevant to the specific illness/es if applicable	☐ Criterion met ☐ Criterion not met
Systematic approaches to risk assessment follow-up and coordination of care for consumers, taking into account others affected such as children and other dependents	☐ Criterion met ☐ Criterion not met

6.10 Learning outcome: Use appropriate MBS item numbers relating to provision of mental healthcare	OFFICE USE ONLY
Discuss MBS item numbers relating to development of GPMHTP and other GP mental health item numbers	☐ Criterion met ☐ Criterion not met

Section 7 Attachments

Please ensure that you have attached **all** relevant documentation, including copies of all resources and materials provided to participants.

Attachment checklist:

Advertising material /program flyer	Evaluation material
Detailed program timetable or outline	Participant resources / workbooks
Predisposing activity material	Needs assessment (with references)
Reinforcing activity material	3 copies of pre-recorded consumer and carer perspective videos (If applicable. Requires prior approval from GPMHSC Secretariat)

Section 8 Acknowledgement of responsibilities

Providers of accredited MHST are required to:

- Notify the GPMHSC if any changes to the activity will be made such as, content and speakers, that differ from this application during the 2017–19 triennium.
- Submit to the GPMHSC an activity report which includes the aggregated evaluative data within 6 weeks of completion of the training activity. This can be the same report provided to the RACGP and/or ACRRM.

Please indicate your acceptance of these requirements.

I,

agree to comply with the requirements outlined above for providers of MHST.

Section 9 Additional information for RACGP and/or ACRRM accreditation

RACGP required information: complete only if seeking RACGP accreditation with this form.

Questions relating to completion of this section should be directed to the RACGP QI&CPD Office in your state (refer to www.racgp.org.au/qicpd/contacts for contact details).

9.1 Shared information consent

Do you give permission for program information to be shared with the researchers and interested GPs for continuing education purposes at the discretion of the RACGP QI&CPD Program. The RACGP may use the information in this application for its own research and evaluation.

Yes

No

9.2 Declaration

I declare that:

- I am the Education Activity Representative (EAR) and/or authorised person to submit activities on behalf of the organisation
- The development and delivery of this activity as described above meets the relevant requirements, educational standards and criteria of the RACGP QI&CPD Program
- All administration requirements will be in accordance with the RACGP QI&CPD Program
- The information provided by me in this document is accurate and complete
- I understand and acknowledge that the RACGP reserves the right to withdraw accreditation of the activity if in the opinion of the RACGP the activity does not meet the relevant requirements, educational standards and criteria
- I understand that on request I must be able to produce and provide all information relating to this activity for the purpose of Quality Review

Activity developers full name:

Date:

Signature:

ACRRM required information: complete only if seeking ACRRM accreditation with this form.

Questions relating to completion of this section should be directed to the ACRRM Professional Development Program – pdp@acrm.org.au; 07 3105 8200.

By submitting this application you agree to provide ACRRM with the following:

- A program outlining the session content and times
- Pre and post activities

Within one month of the activity provide electronic copies of:

- Attendance list with ACRRM member details and ACRRM membership numbers
- A summary of the event evaluation results

Name of contact person for providing documentation:

Position:

Phone:

Email:

Payment costs / Tax invoice

The adjudication fee is only applicable for providers that have not purchased an accredited activity provider service agreement with the RACGP QI&CPD program.

Adjudication fees: \$616 (includes GST) for each application. All prices quoted include GST.

RACGP will raise a tax invoice upon submission of this application to the RACGP. Payment will need to be processed before application is adjudicated.

Please submit your application and payment with this invoice to your QI&CPD Unit.
