Unlock your

practice potential

The RACGP's Practice Experience Program (PEP)

**Education, support and
optional exam preparation
for non-vocationally registered
(non-VR) doctors.**

The RACGP's PEP can unlock big
benefits for your practice.

Encourage non-VR doctors working
with you to apply and develop their
career in Australian general practice
and take a step closer to Fellowship.

RACGP

Royal Australian College of General Practitioners

Do you have non-VR doctors working at your practice?

The RACGP's PEP helps non-VR doctors prepare for Fellowship exams and develop their career in general practice, with wide ranging benefits for your practice, your business and your community:

- Access to full A1 Medicare rebates for PEP participants, directly improving your practice revenue and acknowledging the skills of your workforce.
- Specific RACGP Fellowship exam support through the optional Practice Experience Program Exam Preparation (PEPEXP) course, provided by RACGP medical educators in an easily accessible and interactive format to allow continuity of care while preparing for the exams.
- Continued eligibility for the RACGP Fellowship exams post-2021 (when the rules for exam eligibility change), helping to ensure that your team is prepared.
- Development of valuable knowledge and skills through PEP mentors and assessors, helping to enhance quality of care for your local community.

Start the conversation with your non-VR doctors today. Learn more about the PEP at www.racgp.org.au/pep
