

How to access courses on the new Learning Management System

Where can I find an overview of how to use the new LMS?

The landing page includes a YouTube clip of how to use the LMS. This video will provide a quick introduction to the new Learning Management System (LMS).

The screenshot shows the landing page for the new Learning Management System (LMS). At the top, there is a dark blue banner with the text "Welcome to *gplearning*". Below this, there is a "Click here for help" button. The main content area features an announcement titled "Hi Tess. Welcome to gplearning!". The announcement text reads: "Before starting your learning, please watch this short video (3m 30s). This video provides a quick introduction to the *gplearning* Learning Management System (LMS), including how to navigate, search and enrol in courses." A red arrow points to a red 'x' icon in the top right corner of the announcement, indicating it can be dismissed. Below the text is a video player showing a YouTube video titled "2023: The new gplearning" with the RACGP logo and the text "gplearning". A "Watch on YouTube" button is visible. Below the video player, there is a tip: "Tip: This announcement can be dismissed by selecting 'x' on the top right corner of this post. Only dismiss this post once you have watched the video above. Use the 'Show All Announcements' options to re-view this and other announcements." At the bottom of the page, there are two sections: "Content Quick Search" and "Courses I'm enrolled in". The "Courses I'm enrolled in" section shows a message: "You don't have any courses to display."

Are there any differences between the GPT1 courses (modules) on *glearning-transition* and those on *glearning 2023*?

The content in the recommended courses is the same across both LMSs. However, they are set up differently on *glearning-transition* and on *glearning 2023* because of the differences in features and functionality between the two LMSs.

On *glearning-transition*, there are ten (10) courses packaged into a learning path called 'Preparation and Learning in the AGPT program.'

On *glearning 2023*, these are available as eight (8) separate courses which can be categorised into the four areas below:

Preparation modules for AGPT registrars

1. Preparation modules for AGPT registrars (Course package contains three separate modules)
 - Onboarding to the AGPT program
 - Transitioning to general practice
 - Learning and assessment in the AGPT program

Working in Australian general practice

2. GP Pathway to Australian general practice (Accredited course package contains three separate modules)
 - Introduction to working in Australian general practice
 - Managing legal dimensions in general practice
 - Introduction to prescribing in general practice
3. MBS Billing (Course has four related lessons)

Doctors' health and wellbeing

4. Addressing doctors' health: Caring for ourselves and our colleagues (Accredited course has only one module)

Clinical and general practice skills

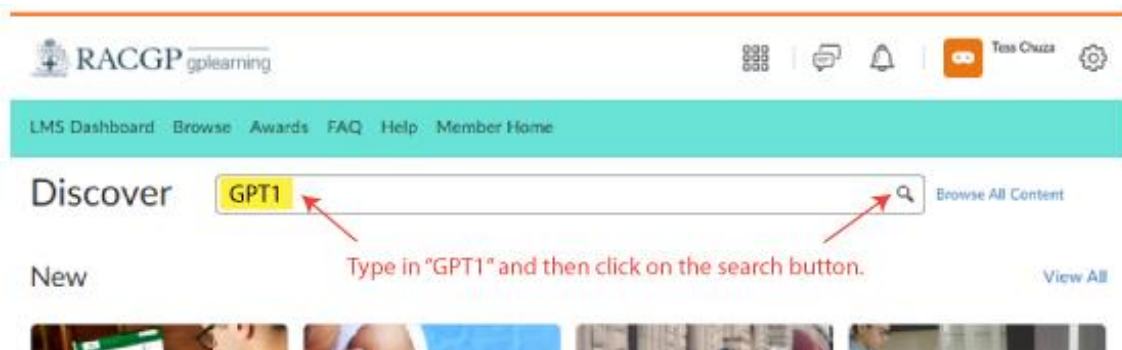

5. Clinical reasoning and avoiding diagnostic errors (Accredited course has only one module)
6. Introduction to immunisation (Course has four related lessons)
7. Giving and receiving feedback (Course has only one module)
8. How to become a self-directed and reflective learner (Course has only one module)

How can I search for the recommended GPT1 training modules on *gplearning2023*?

- 1) Click on the **Browse** menu button on the top left of the landing page.

- 2) On the Discover page, type **GPT1** in the search field and click on the **search** icon.

All courses related to GPT1 will be listed in the search results.

**Preparation modules for AGPT registrars**

To help you prepare for the Australian general practice training (AGPT) program, we have created three core onboarding modules. These modules will give you an overview of the main requirements of the AGPT and help to prepare you as you begin the program. These modules are designed to be completed just prior to commencing the AGPT program but can be completed at any time. You may also wish to return to the modules...

**MBS Billing**

This course provides an introduction to MBS Billing for registrars. It describes billing in different situations and scenarios. The MBS Billing course is designed for all GP registrars to complete prior to starting or soon after starting their first GP term. There are four lessons in this course. [AGPT][FSP][ISP]; Medicare; billing; MBS; fees; Organisational and legal dimensions; [OrgLeg] By the end of this module, you will have...

**How to become a self-directed and reflective learner**

This module describes what is meant by the terms "self-directed learning" and "reflective learning" and looks at how you can implement skills that lead to self-directed and reflective learning. This module should take you approximately 15 minutes to complete. [AGPT] [FSP][ISP]; reflection; learning; learning goals; learning strategies; self-evaluation; GPT1; [KnowSkill] [ProfEth] This course was last updated in November 2022....

**GP pathway to Australian general practice**

396739_396741_396744 orientation; onboarding; AGPT; GPT1; MBS; Medicare; PBS; pharmaceutical benefits scheme; National disability insurance scheme; NDIS; Aboriginal and Torres Strait Islander health; workers compensation; ambulance; patient transport; primary health networks; rural workforce agencies; medical registration; CPD; clinical guidelines; interpreters; telehealth; referrals; follow up systems; recalls;...

**Giving and receiving feedback**

Feedback is an important part of learning and improving performance. This module explores some of the different types of feedback registrars may receive (including informal and formal feedback) and how they can make the most of it. It will also discuss how to effectively give feedback to others. This module should take you approximately 15 minutes to complete. [AGPT][FSP][ISP]; feedback; supervisor feedback; assessment...

**Introduction to immunisation**

This introductory course provides an overview of different components of vaccination. It explores the immunisation schedules, different components of the immunisation consultation and procedures for giving vaccinations. Case studies are used to demonstrate how parental vaccination concerns can be addressed at a 6 week check. This 'Introduction to immunisation' course is designed for all GP registrars to complete prior ...

**Clinical reasoning and avoiding diagnostic errors**

Clinical reasoning is the heart of medical practice, and this module introduces some of the theories of clinical reasoning. It also discusses errors that can occur in clinical reasoning, and how you can avoid them. Understanding the theory behind clinical reasoning and reflecting on clinical reasoning skills can help both new and experienced GPs to improve their clinical practice. This includes: improving time to diagnosis ...

**Addressing doctors' health: caring for ourselves and our colleagues**

This module aims to promote psychological health and wellbeing in GPs and will present strategies you can use to address your own health as well as that of your colleagues. It also explores the risk factors and warning signs of stress and burnout and outlines the principles of self-care, including effective preventive strategies and support services available to GPs. This module also allows you the opportunity to reflect on...

Preparation modules for AGPT registrars

Enroll in Course

Course Info
Course Code: AGPT_PREP

Course Description

To help you prepare for the Australian general practice training (AGPT) program, we have created three core onboarding modules. These modules will give you an overview of the main requirements of the AGPT and help to prepare you as you begin the program.

These modules are designed to be completed just prior to commencing the AGPT program but can be completed at any time. You may also wish to return to the modules during GPT1 to revise specific topics, which may become more relevant once you've commenced the program.

The three modules are:

- Onboarding to the AGPT program*
- Transitioning to general practice
- Learning and assessment in the AGPT program

orientation: onboarding: learning: assessment: AGPT: GPT1: (AGPT)

This course was last updated in November 2022.

Click to enrol in course and then Open Course to start learning.

Course will also appear on your homepage and can be accessed at any time.

How can I browse for all AGPT specific courses?

There are two ways to search for AGPT specific content:

1. Click on the **AGPT link** which can be found in the **Content Quick Search** area on the LMS landing page.
2. Click on **Browse** on the LMS landing page and type **AGPT** in the search field.

The screenshot shows the RACGP gplearning LMS landing page. At the top, there is a banner with the RACGP logo and a YouTube icon. Below the banner, there is a tip about dismissing announcements and a link to 'Show All Announcements'. A red arrow points to the 'AGPT' link in the 'Content Quick Search' section. The 'Content Quick Search' section lists various topics and training programs, with 'AGPT' highlighted in a red box. The 'Courses I'm enrolled in' section shows a list of courses, including 'Giving and receiving feedback', 'How to become a self-directed and reflective learner', and 'Preparation modules for AGPT registrars'. The bottom navigation bar includes 'LMS Dashboard', 'Browse', 'Awards', 'FAQ', 'Help', and 'Member Home'. The search results for 'AGPT' are displayed, showing 1-20 of 39 results. The first result is 'Preparation modules for AGPT registrars', followed by 'Osteoporosis', 'Diarrhoea', and 'MAFLD'.

How can I search for other *gplearning* resources?

Click on **Browse** on the LMS landing page and type a search term in the Discover **search** field.

MCQ Sort: Most Relevant

1-20 of 22 for "mcq"

Neurology MCQs
 This module addresses GP knowledge and skills in relation to neurological presentations. These presentations are very broad and many conditions can present differently, therefore it is important that GPs can spot red flag signs and symptoms of serious disease, as well as have an understanding of the management of more common conditions that impact quality of life. There are 15 multiple choice questions to answer. Question...

Paediatric immunisation MCQs
 This MCQ set provides an overview of paediatric vaccination requirements as listed in the National Immunisation Program Schedule. Processes around vaccine storage, valid patient consent and appropriate management of adverse events are also included. It is based on the Australian Immunisation Handbook. 382302 [ATSIH] [MCQ] Educational Activities [EdAct] Reviewing Performance [RevPer] [Hybrid] Infectious...

Menstrual disorders MCQs
 Identifying the cause and most appropriate treatment for menstrual disorders is vital for GPs, with approximately 25% of women of reproductive age experiencing heavy menstrual bleeding. This activity incorporates 15 multiple choice questions in the Applied Knowledge Test (AKT) style with extensive feedback provided to help GPs assess their knowledge and further develop their understanding of menstru...

Gastrointestinal conditions MCQs
 Gastrointestinal presentations are very common in general practice and account for one of the highest volume of GP prescriptions (PPIs for GORD). Gastrointestinal conditions can have very similar presentations.

Where can I see the courses I am enrolled in?

These will appear in the **Courses I'm enrolled in** section of the home page located underneath the introductory YouTube clip.

All the courses you are enrolled in will appear under the **All** tab.

Courses that are very specific to the AGPT program will also appear under the **Training Programs** tab. All accredited courses, which include some courses recommended for AGPT training, will also appear under the **gplearning CPD** tab.

If I have completed a course in *glearning-transition*, will my course completions be recorded in *glearning 2023*?

Course progress and completions will not be automatically transferred over from *glearning* to *glearning2023*.

If there is a local requirement to complete a course you can select *glearning – transition* as the dropdown menu option when you login to the RACGP website to see what you have completed to date. This record will be available until June 2023.

How long do I have to complete partially completed courses in *glearning-transition*?

You will have 30 days to complete any partially completed courses in *glearning - transition*. You will not be able to complete anything beyond 31 March 2023.

Can I enrol in new courses in *glearning-transition* from 1 March 2023?

No. You will not be able to enrol in any new courses in *glearning – transition*.

All new courses will need to be commenced in glearning 2023 from 1 March 2023.

Who can I email if I need more support?

You can email your query to glearning@racgp.org.au.
