

## 2024 AGPT Supervisor Educational Calendar NSW & ACT

The NSW and ACT supervisor educational events are being delivered at a regional and local level, both face-to-face and in online formats to best enable all supervisors to attend. Supervisor events offered within NSW and the ACT in 2024 are detailed below, separated into local training area events and regional events (all of NSW & ACT).

GP supervisors will be invited to attend individual workshops, both face-to-face and online, based on their local training area. The face-to-face events present an excellent opportunity to connect with your fellow supervisors and medical educators in a friendly and collegiate environment. Webinars for supervisors are offered at both the regional and local training area level.

All the local and regional supervisor education events for existing supervisors listed below meet the RACGP Supervisor Professional Development requirements and attract CPD hours. The RACGP will provide a supervisor professional development stipend to eligible training sites each semester. Please review the recently updated [Supervisor Professional Development Requirements and Payments](#) for more information.

Your local training area Supervisor Education and Support medical educators are available to provide you with educational support - please see the contact information at the end of the calendar.

## An introduction to peer-led small group learning for supervisors

In 2025 we will be including peer-led small group learning into our face-to-face supervisor professional development program. In NSW/ACT we are offering three opportunities for supervisors to attend a facilitated online meeting as an introduction to peer-led small group learning for supervisors. The majority of these 1 hour sessions will be spent in Zoom breakout rooms with a medical educator facilitator. It is essential for participants to have both video and microphone enabled to be involved in the small group discussions.

These online sessions are for all supervisors and are eligible to contribute to the Supervisor Professional Development stipend requirements for 2024.2.
