Wednesday 15/07/2026	7:30pm – 8:30pm	Ophthalmology and the red eye	Shakespeare made famous the expression ‘the eyes are the windows to the soul’ and sight being a dominant human sense, we need to protect patient’s sight when they present with worrying symptoms. Ophthalmology presentations can be divided into emergency and non-emergency presentations, this webinar will help identify the difference, what you can do to manage them as a junior doctor and when to seek help. By the end of this session, you will be able to: • Outline how to perform an eye examination. • Understand the assessment of the acute red eye and when to seek help.	Register here
Tuesday 27/10/2026	7:30pm – 8:30pm	ENT - the common and the urgent	Ear nose and throat presentations are common in both paediatric presentations and adult cohorts. Understanding the underlying causative organisms and the relationship between treatment and outcomes is important. Being proficient in both examination and management will enable doctors in training to initiate treatment and identify when to seek help. By the end of this session, you will be able to: • Describe the diagnosis and treatment of common ENT conditions including acute otitis media, otitis externa, sinusitis, and tonsillitis • Outline the initial management of common ENT emergencies and when to seek help.	Register here
