RACGP

2026 AGPT Supervisor Professional Development Calendar – NSW & ACT

The RACGP recognises and supports the professional development and networking of supervisors as critical to the delivery of quality general practice training.

Supervisor educational events are delivered at a regional and local level both face-to-face and online to ensure all supervisors have access to professional development. These events present an excellent opportunity to connect with your fellow supervisors and medical educators in a friendly and collegiate environment. Increasingly we will be using peer-led small group learning sessions as the basis for supervisor education as this will enable you to learn from your peers and have education that meets your needs.

Live attendance at all the local and regional supervisor education events for existing supervisors listed in this calendar will automatically qualify as contributing to the supervisor professional development stipend paid to the eligible training sites. Please read the Supervisor Professional Development document for more information. Attendance at the events will also attract CPD hours in addition to the hours automatically provided to supervisors. See the CPD for General Practice Supervisors document for more information

Recordings of some webinars will be available for review on gplearning. However, the SPD stipend and CPD hours are only awarded for attendance at the live events and not for watching the recordings. Where indicated regional webinars may form part of a pre workshop requirement to connect with subsequent small group learning sessions at face-to-face workshops in the local training area.

Eligible supervisors located in MMM2-7 practices with a current registrar may be eligible for reimbursement of travel expenses to face-to-face events. Claims may be made via the TMS, refer to the Flexible Funds policy, or contact your Training Coordinator for details.

Supervisors will receive a registration invitation for each individual workshop event closer to the date. Local peer-led small group meetings (SGM) will be offered in some areas outside of a workshop setting. These events will be by invitation only and are listed in this calendar on pages 4 & 5.

Educational support for supervisors

Supervisor Education and Support medical educators are available to provide you with educational support - please see the contact information at the end of this document.

Supervisor Professional Development (SPD) Events

Workshops - all accredited GP Supervisors welcome

We aim to provide varied and flexible educational content across the year in each local training area to meet the professional development needs of GP supervisors in different locations and online during 2026. Details of the program for each individual workshop will be included in the invitation sent to local supervisors closer to the event date. The planned program may include peer-led small group learning sessions that do not have a specified topic for learning as this can be established by the group on the day. Supervisors who are only accredited with ACRRM are welcome to attend subject to availability of places and the appropriateness of the events.

Where whole day workshops are offered, supervisors can choose to attend either a half or a full day of the program.

New supervisor training

Initial training - by invitation only for new supervisors

New supervisors are eligible for payment once training is completed. Please refer to the New supervisors section of the supervisor professional development document for more information (page 3).

Foundations of GP Supervision Program: face-to-face workshop

It is a requirement for all new supervisors working in general practice to complete the initial seven modules of the Foundations of GP Supervision Program, including attendance at an interactive workshop. Supervisors are invited to attend upcoming workshops whether in Sydney or within their local training area after acceptance of their application to be a supervisor.

The dates for the Foundations of GP Supervision Program in 2026 are listed below. Funding is available for travel and accommodation for all new supervisors whose training practice is in a MMM2-7 location.

Please do not book any travel until you have received confirmation of your registration at one of these events.

Wednesday 2/12/2026	9:00am – 5:00pm	Sydney	Bronwyn Nielsen

Foundations of GP Supervision Program: special circumstances

Interactive online workshops will be made available each term for new supervisors in specific circumstances where face-to-face attendance is difficult or there is a need for urgent accreditation as a supervisor. Please contact the Regional Education Support Officer NSW / ACT team for more information.

Follow-up training - by invitation only for new supervisors hosting a registrar

Attendance at these online workshops is optional. New supervisors will be invited to attend the following 2 online workshops once they are actively involved in teaching and supervising a registrar in their practice.

1. Foundations in Action: What's working, What's next?

This workshop is an opportunity to check in with your new supervisor peers and medical educators, ask any questions, discuss how supervision is going so far, and to share your experiences. New supervisors will be introduced to Module 8 from the Foundations of GP Supervision Program in preparation for the second online workshop.

2. Foundations in Action: Peer-led feedback and reflection

This workshop involves an opportunity for peer reflection and feedback for new supervisors after completing Module 8 of the Foundations of GP Supervision program.

Supervisors are encouraged to attend both workshops in the same term.
