

## 2023.2 AGPT Supervisor Educational Calendar NSW & ACT

The NSW and ACT supervisor educational events are being delivered at a regional and local level, both face to face and in online formats to best enable all supervisors to attend.

In 2023 attendance at supervisor professional development is not mandatory. Supervisors will be invited to events in their local training area and are encouraged to consider attending based on upskilling needs. Face-to-face events present an opportunity to reconnect with your fellow supervisors and medical educators in a friendly and collegiate environment. Your local training area Supervisor Education and Support medical educators are available to provide educational support, please see the contact information at the end of the calendar.

The table below outlines all Supervisor events available within NSW and the ACT this term. GP supervisors will be invited to attend individual events based on their local training area. Please review the [Supervisor Professional Development Payments flexible funds fact sheet](#) for more information about eligibility for payment.

We hope you find these important events useful as an adjunct to your professional development and training.
