

Victorian Government | COVIDSafe AZ 60+ Vaccination Campaign Stakeholder Pack

30/08/2021

Introduction

Voices for Vaccine is our vaccination communications platform encouraging all Victorians to get vaccinated against COVID-19.

With vaccination as our gateway to reopening, we need to accelerate uptake.

This specific part of the campaign encourages 60+ Victorians to get vaccinated for their health, and the safety of the community. That encouragement comes from the cohort themselves. Authentic, emotional storytelling, featuring Victorians aged 60+ telling their own personal stories about vaccination, what their vaccination means to them, and how it will ultimately help them return to life as normal.

This peer to peer structure also allows us to talk to the hesitancy - helping to educate those seeking information and guidance to speak to a health professional, for a well-informed view of the COVID-19 vaccine.

What you can do to help

You can help by:

- Sharing the materials that you can access from this stakeholder kit with your community via social media and digital platforms.
- Directing people to the Victorian Government's coronavirus website for current information and updates: [CORONAVIRUS.vic.gov.au](https://coronavirus.vic.gov.au)
- Advising anyone who is concerned to call the coronavirus hotline on 1800 675 398 (24 hours).

I talk to my parents on the phone every couple of days. They're in their 80s, and vulnerable to COVID-19. I wasn't in a rush to get vaccinated for myself, but I wanted to do it for them. Now I'm vaccinated, and we are a step closer to being together again as a family.

I used to have my family over for broken rice and pork every week. I miss having them here, making them leftovers, and all those hugs. The COVID-19 vaccine gets us closer to life getting back to normal again. Then I'll be able to see my family whenever I want.

I've had the same doctor for years.
I trust her advice on everything - I always have.
So when it came to the COVID-19 vaccine, I knew I could ask her any questions I had and get the advice I needed to get vaccinated.
