Situation in Victoria

Transmission of COVID-19

Mode of transmission over time

Testing Update Overall Strategic Approach

Over the coming months, three tiers of potential COVID-19 infection in the Victorian community require CET to deliver three levels of testing response, enabled by fast pathology turnaround times

Why it's important **CET Testing Model Testing Criteria** Defined close contact Rapid response "We tackle outbreaks quickly and ensure we test every If high risk setting, establish Surge capacity at fixed broader testing cordon sites associated contact" · Can be asymptomatic COVID-19 **Outbreaks** Rapid response "We work closely with higher Higher risk and vulnerable Pop-Up risk and vulnerable communities Communities at communities and industries to Surveillance Testing – Adjoining Fixed Sites particularly high risk of identify early signs of COVIDdoes not need to be Ongoing community contracting and/or 19" and workplace symptomatic spreading COVID-19 presence Health Services "We encourage and enable **General Population** Primary Care, GPs people with symptoms to get Symptomatic only Individuals in the general population tested early" Community Health who have symptoms Fixed Retail Call to Test

Testing Update

Surveillance Testing

- 28 facilities (18 different businesses) report that surveillance testing took place last week
 - 19 metro and 9 regional
- 1,776 workers were tested from these facilities
 - Out of a weekly workforce of 8,092 which equals 22%
- These facilities came from 16 different LGAs
 - Wyndham (7), Whittlesea (3) and Geelong (3) were the most represented.

Testing Update

Wastewater Surveillance

- A total of 42 wastewater treatment plants participating in the state wide wastewater surveillance program
- 36 regional and 6 metro sites (inclusive of 10 new sites)

Testing Update

Saliva Testing

 Saliva Testing is underway in regional Victoria, as the government's food supply industry surveillance testing program.

Phase 2

- We expect to test more than 700 workers each week.
- Saliva samples will be processed by the Victorian Infectious Diseases Reference Laboratory.
- This is part of the government's work to assess alternate ways to undertake COVID screening tests, that

experience for patients

Week of 12 October

- The testing has already taken place at Woodward Foods, Hazeldene's, and KR Castlemaine.
- Greenham's
 Tongala and Moira
 Mac's Bendigo
 lined up for

10/15/2020

Mental health – key trends and supports

- Children/young people Increased MH presentations and intentional self harm presentations to ED of 0 17 years
 to Emergency Depts.
- Coroners Court release of monthly suicide data overall numbers are steady compared to 2019. Suicides of males over 65 years and under 18 years are now at the same number as all of 2019. CCV notes this does not mean there is an increased trend as overall numbers low; all deaths under coronial investigation.
- International evidence points to COVID-19 mental health impacts on women and children (UK/Italy see <u>The Lancet</u> <u>July 2020</u>)

Supports

- New Commonwealth funded mental health clinics, 15 across Vic headtohelp.org.au (see FAQ distributed)
- Partners in Wellbeing psychosocial support service 1300 375 330
- Beyond Blue Coronavirus Mental Wellbeing support service, single sessions, online forum.
- Victoria over \$200 million mental health funding for new programs, extend existing including extended hrs, links for many services @ dhhs.vic.gov.au/mental-health-resources-coronavirus-covid-19
- Announcement Mental Health Care plans 10 additional sessions until 30 June 2022 see <u>FactSheet</u>
