

Transition to college-led training

Acknowledgment of country

I would like to acknowledge the traditional owners of the lands from where each of us is joining this webinar today.

I wish to pay my respects to their Elders past, present and emerging.

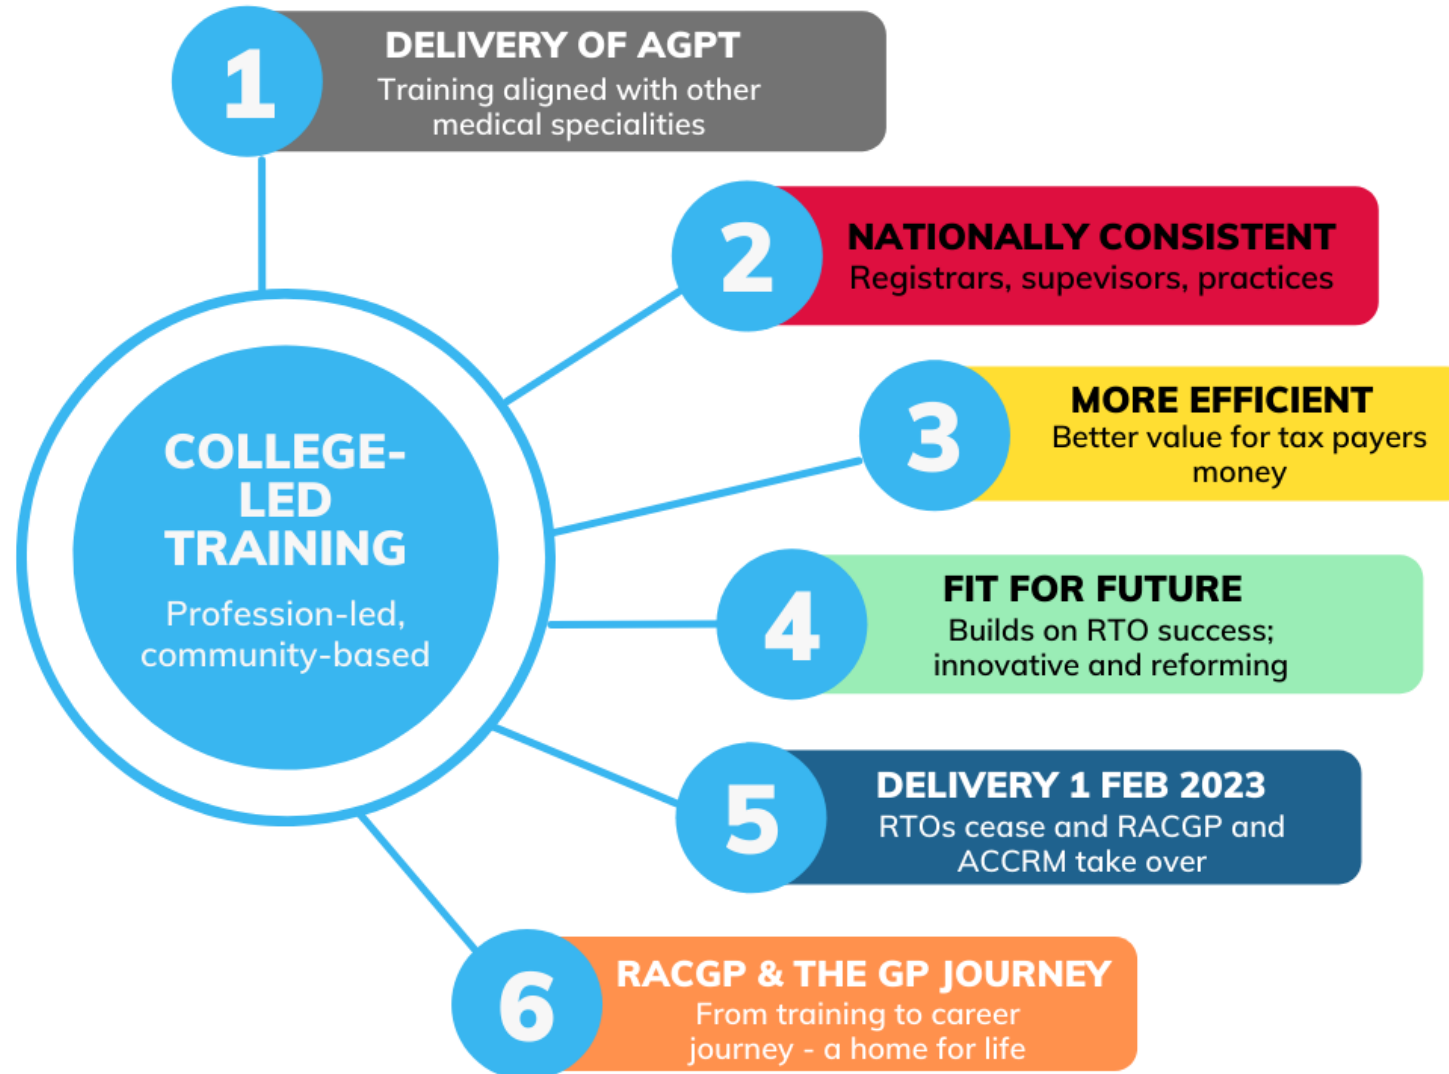

Why is college-led training important to RACGP?

Our purpose: Ensure a strong GP profession that keeps Australia healthy

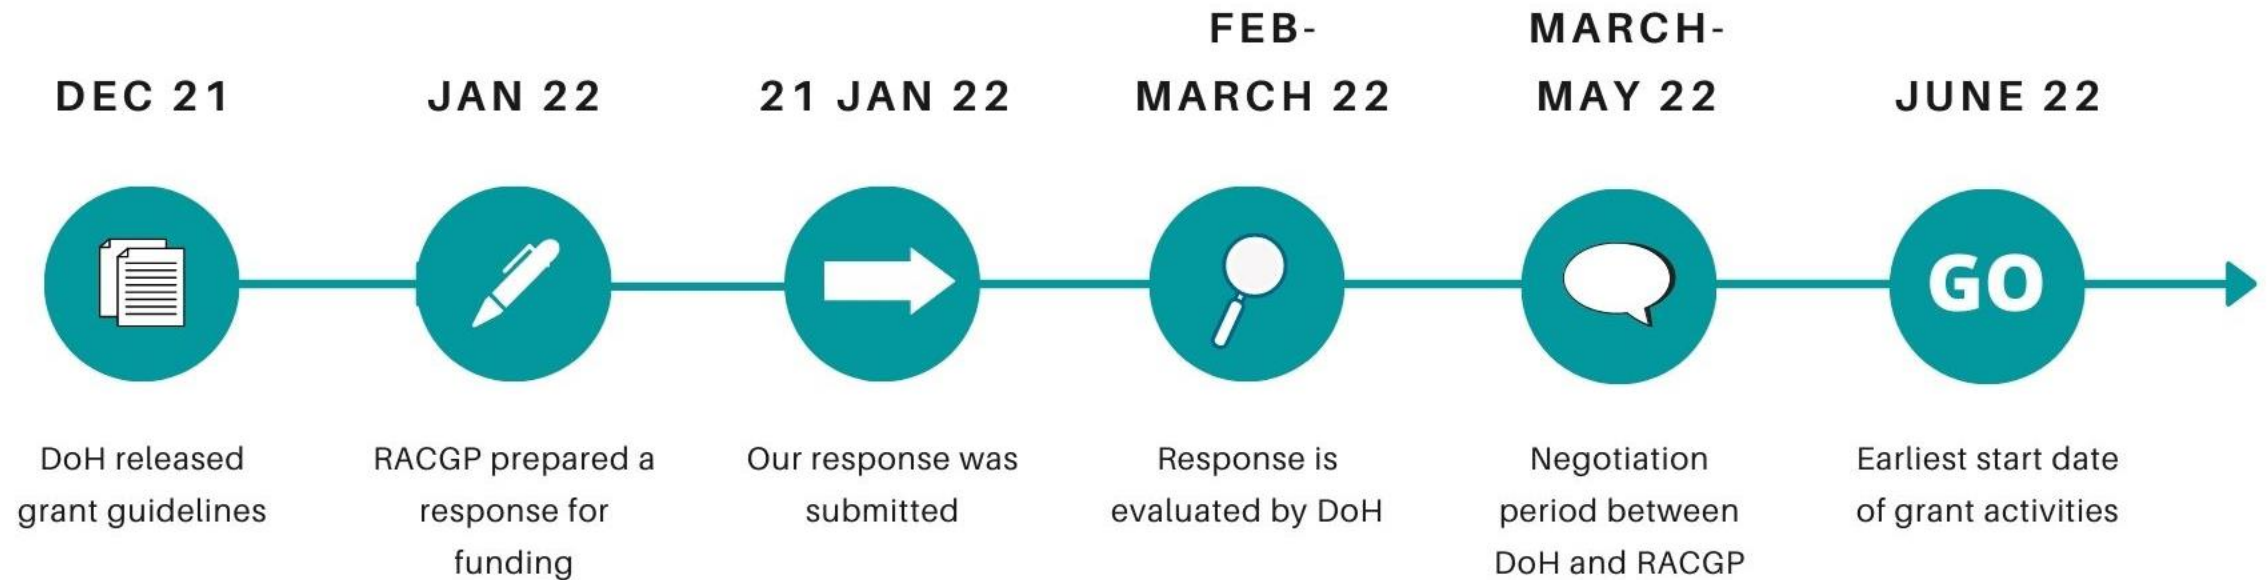

Our goal: Australia's health outcomes improve because every person in Australia, regardless of their postcode or their vulnerabilities, can – and does – regularly see a GP.

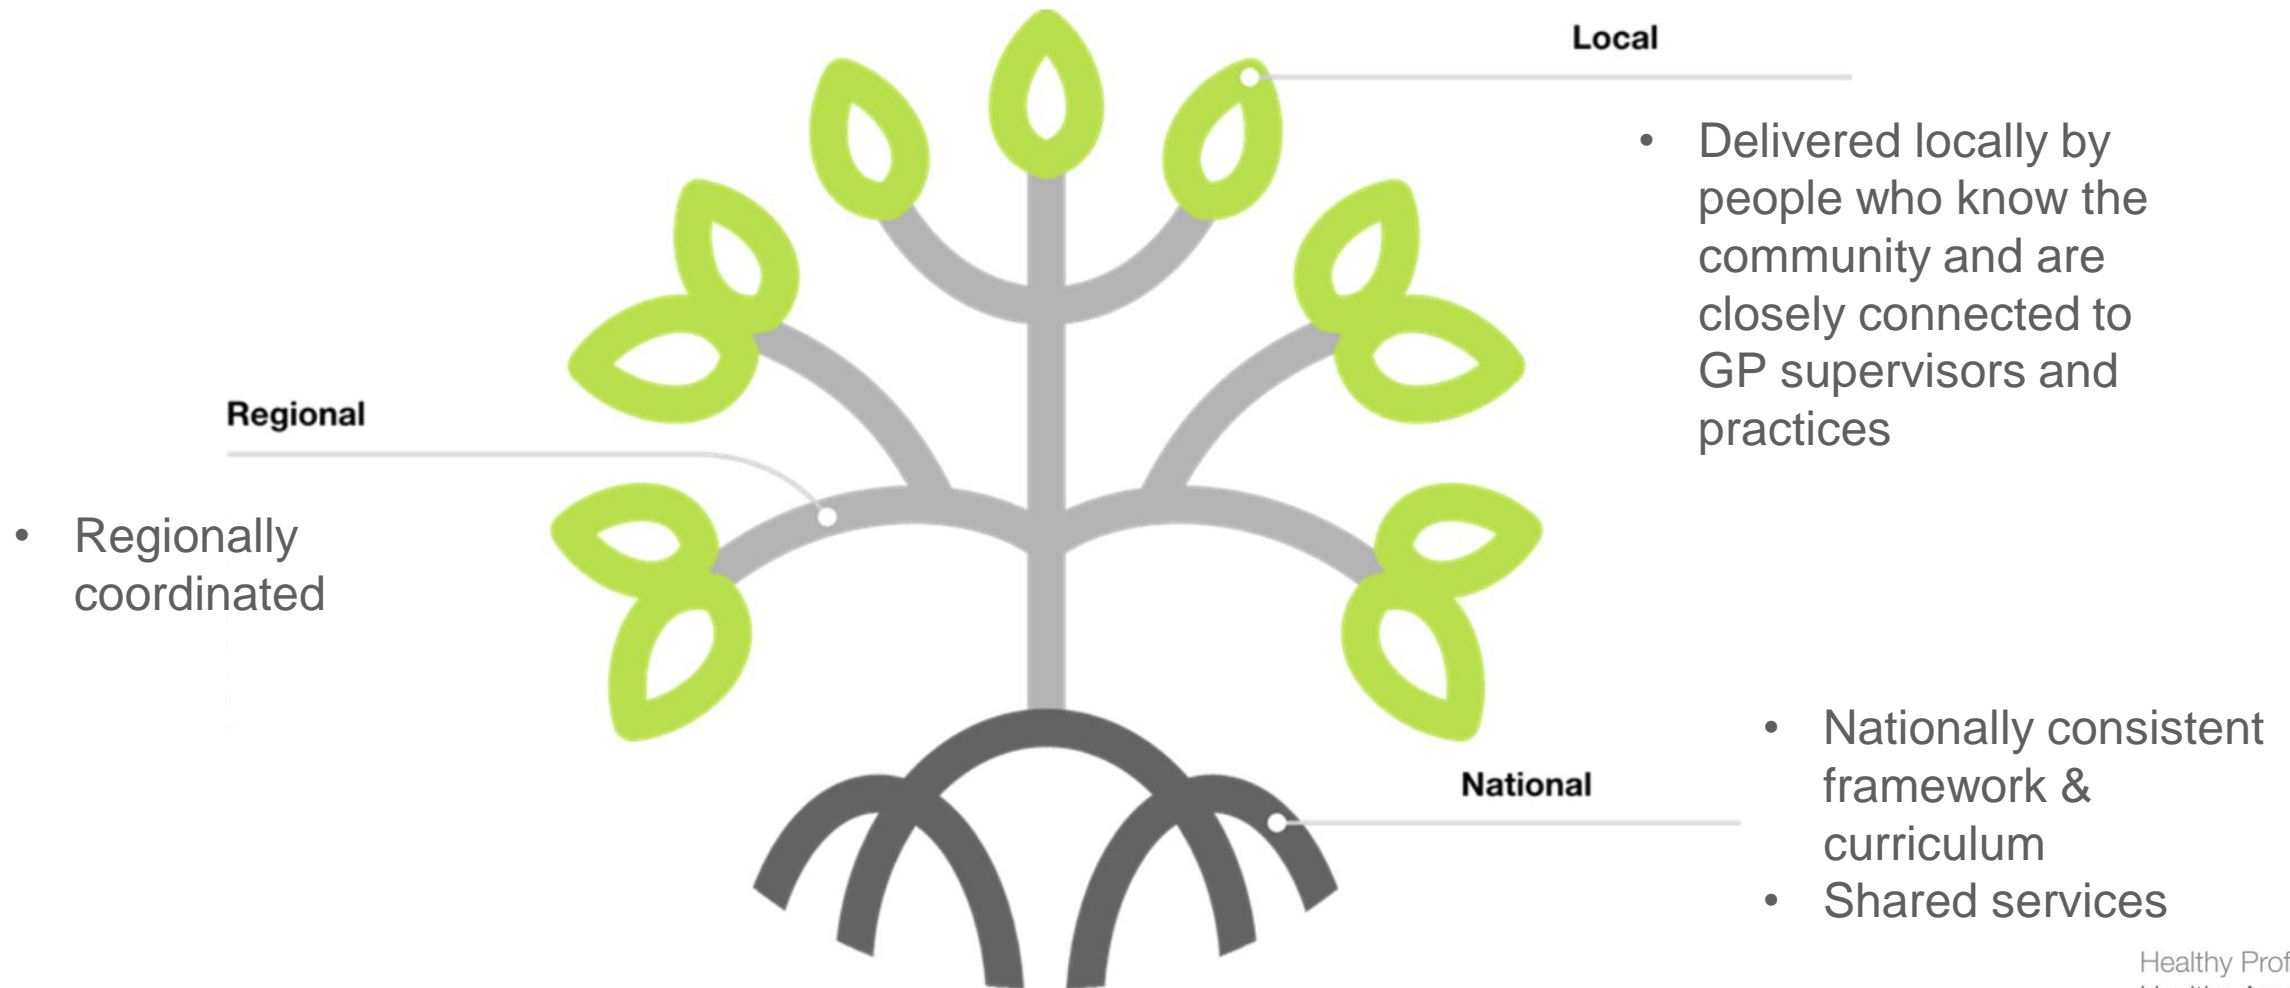

College-led training

Grant Opportunity Guidelines process

Key structure of our model

Key features of our model

- ✓ Locally delivered, contextually-driven education
- ✓ Strength of relationship with registrars
- ✓ Flexibility and mobility of training for registrars
- ✓ Embedded Aboriginal and Torres Strait Islander cultural and health training
- ✓ Targets areas of workforce need through well-supported pipelines
- ✓ Progressive assessment
- ✓ Rural generalist program
- ✓ Strengthened training in academic general practice

Take-aways for GP registrars

- ✓ Minimal disruption – expect a similar approach in 2023 to what you now know
- ✓ Working with RTOs to bring their successes into our program, retain their staff and ensure a smooth transition
- ✓ National approach will provide consistency, combine the best of the RTO approaches
- ✓ Greater flexibility
- ✓ We are working with RTOs to minimise disruption to training
- ✓ Registrar placement process and choice of location
- ✓ Strong individualised support mechanisms
- ✓ Nationally consistent payments implemented by DoH
