Section D: Declaration

Conflicts of Interest

Please list any conflicts of interest you may have in applying for an RACGP Expert Committee position, and what you perceive to be a conflict of interest. Professional Memberships and Executive positions held in other organisations must also be listed here. All real or perceived conflicts must be declared and may impact selection eligibility.

Should your application be successful, any conflicts of interest that arise throughout the duration of an incumbent's appointment, are the responsibility of the incumbent to notify and inform the RACGP of any new conflicts as they arise. It is important that applicants understand that any changes to their circumstances with respect to conflict of interest, may make them ineligible, or ineligible to continue in the role they have or may be appointed to as part of an RACGP Expert Committee.

By completing the declaration below, you are agreeing to abide by the RACGP Conflict of Interest Policy and agree to notify the RACGP and declare any conflicts of interest that may impact your ability to hold a position on an RACGP Expert Committee now, and at any time should a conflict of interest arise during your appointment.

Further guidance information on conflicts of interest is available on our website, along with the electronic form that you will be required to complete for each conflict of interest, should you be successful in your application and nomination to an RACGP Expert Committee.

I certify that the information I have provided in and with this expression of interest is correct and complete.
