EASL
The EASL involves a multi-choice questionnaire, self-assessment of confidence, workplace-based assessment, and orientation and initial supervision activities with the supervisor, including a teaching plan. The supervisor is expected to commit one hour per day for the first two weeks (total 10 hours) to conduct these activities.

Requirements by term

Out-of-practice teaching and peer learning groups (ie teams sessions) are mandatory (see table), except for workshops. Your training coordinator will let you know the dates of any mandatory out-of-practice learning activities for your region. You'll need to communicate with your practice to ensure you can attend. If you miss a compulsory educational activity, you'll need to discuss with your ME how you will make up the missed learning opportunity.
