

Fellowship Support Program Small Group Learning session schedule

Out-of-practice teaching and small group learning (SGL) sessions are mandatory. You'll need to communicate with your training site to ensure you can attend. If you miss a session, you'll need to discuss this with your Medical Educator (ME) and plan how you'll make up the missed learning opportunity.

Below is a schedule of SGL sessions per general practice training (GPT) term. You'll be invited to attend a specific date with your ME for each month.

GPT term 1

		Topic					
		Orientation	Significant events analysis	Difficult Consultations	Reflective Practice	AKT and KFP prep + exam eligibility	Clinical reasoning
Week	3						
	8
