

RACGP Faculty Council Member Nomination Statement - Dr Andrew Png

I have worked as a GP in Kwinana for over 25 years and have been a member of the WA Faculty Council since 2016. It has been a privilege working with Ramya and the rest of the Council over this time as a council member, past co deputy chair as well as RACGP Board member in 2018. General Practice faces many challenges both in attracting new colleagues to our vocation and defending our scope of practice. I hope with your support to continue contributing at the faculty to advocate for the membership and find help find solutions for the challenges we face as a profession.
